EDUCATION

University of Colorado Boulder

Boulder, CO

Bachelor of Science in Computer Science — GPA: 3.6

Jan. 2025 – May 2027

- **Relevant Coursework:** Generative AI, Data Mining, Algorithms, Introduction to Robotics, Data Science & Probability, Database Systems & Architecture, Computer Systems, Software Development Tools & Methods, Human-Computer Interaction

EXPERIENCE

Junior Software Engineer

Jun. 2024 – May 2025

PontRx

Miami, FL / Remote

- Built and maintained frontend interfaces for a healthcare SaaS platform integrating real-time prescription pricing into physician EHR workflows
- Developed REST API routes connecting frontend clients to AWS DynamoDB, handling prescription event tracking and patient data at scale
- Implemented OAuth 2.0 authentication flows using AWS Cognito to secure patient and provider-facing portals
- Contributed to multi-portal architecture including regional, property, internal, and client-facing dashboards built with Vue.js and FeathersJS

Freelance Web Developer

Feb. 2025 – Present

Independent

Remote

- Designed and developed integritytow.com end-to-end for Integrity Towing Solutions — full frontend build with integrated email service, regional and property manager portals, and internal client dashboard; site pending live deployment
- Built truenorthar.com for TrueNorth AR, a repossession company — static frontend with integrated email service delivered within a 2-month engagement
- Designed and deployed personal portfolio at karson-kelley.com showcasing full-stack projects and client work

PROJECTS

Integrity Towing Solutions — Full Stack Platform | *Vue.js, FeathersJS, postgresSQL JavaScript* Apr. 2025 – Present

- Architected and built a complete business platform including public-facing site, client portal, and regional and property manager dashboards
- Implemented role-based access across four distinct portal types with differentiated permissions and views
- Integrated transactional email service for automated client and operations communications

NutriTeen — Nutrition App Prototype | *HCI Research, User Testing, Figma*

Spring 2026

- Collaborated in a team to design and prototype NutriTeen, a nutrition and recipe application targeting teen users
- Conducted structured user performance studies, collected and analyzed usability data to iterate on design
- Applied HCI principles to optimize information architecture and interaction flows for a youth demographic

MatchFlix — Movie Recommendation App | *React, JavaScript, REST API*

Fall 2025

- Built a Tinder-style swipe interface for movie recommendations as part of Software Development Tools & Methods coursework
- Integrated external movie API to serve dynamic content; implemented swipe gesture logic and preference-based matching

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C, C++, HTML, CSS, SQL

Frameworks & Libraries: React, Vue.js, FeathersJS, Vite, Node.js, EmailJS

Cloud & Infrastructure: AWS (DynamoDB, Cognito, S3, Lambda), Full-Stack AWS Architecture

Developer Tools: Git, GitHub, VS Code, Figma, REST APIs

AI & Automation: GoHighLevel, OpenAI API, Prompt Engineering, Workflow Automation

Currently Building: AI automation agency delivering AI front desk systems for local businesses
